

Environmental Policy

In a global context of increasing awareness about the Climate Crisis and the urgent need to address it, we are committed to sustainable development and respect for the environment as fundamental pillars of our activities and operations.

Our Environmental Policy reflects our firm commitment to reducing the adverse impacts of Climate Change and promoting a Circular Economy.

Through this Policy, we commit to:

- 1. Complying with Current and Applicable Environmental Regulations:** Demanding and promoting strict compliance with current and applicable environmental regulations in all our activities. We are committed to complying with all environmental regulations that apply to our organization, including those we voluntarily subscribe to.
- 2. Making Rational Use of Resources:** Promoting the rational and efficient use of natural, hydric, and energetic resources across all our operations and value chain. This commitment translates into the continuous implementation of best operational practices and strategic partnerships with stakeholders throughout our organization, ensuring responsible use of resources. Additionally, we commit to reducing our resource consumption while optimizing our operational efficiency. We seek innovative solutions to reduce our carbon footprint.
- 3. Managing Environmental Impacts:** Identifying and measuring the environmental impacts of our operations and activities. With this information, we implement effective measures to mitigate or reduce adverse impacts and enhance positive environmental impacts, aiming to contribute to the well-being of the community and the environment in which we operate.
- 4. Promoting the Circular Economy:** Actively fostering the principles of the Circular Economy when it comes to the generation, reduction, reuse, and recycling of our waste. We seek innovative solutions to reduce waste generation, promoting reuse and recycling at all stages of our operations.

We understand that environmental sustainability is fundamental to our long-term success and the well-being of future generations. We are committed to regularly communicating and reviewing this Environmental Policy, ensuring that all our employees and stakeholders are aligned with our environmental objectives.
